PHISH N CHEATS

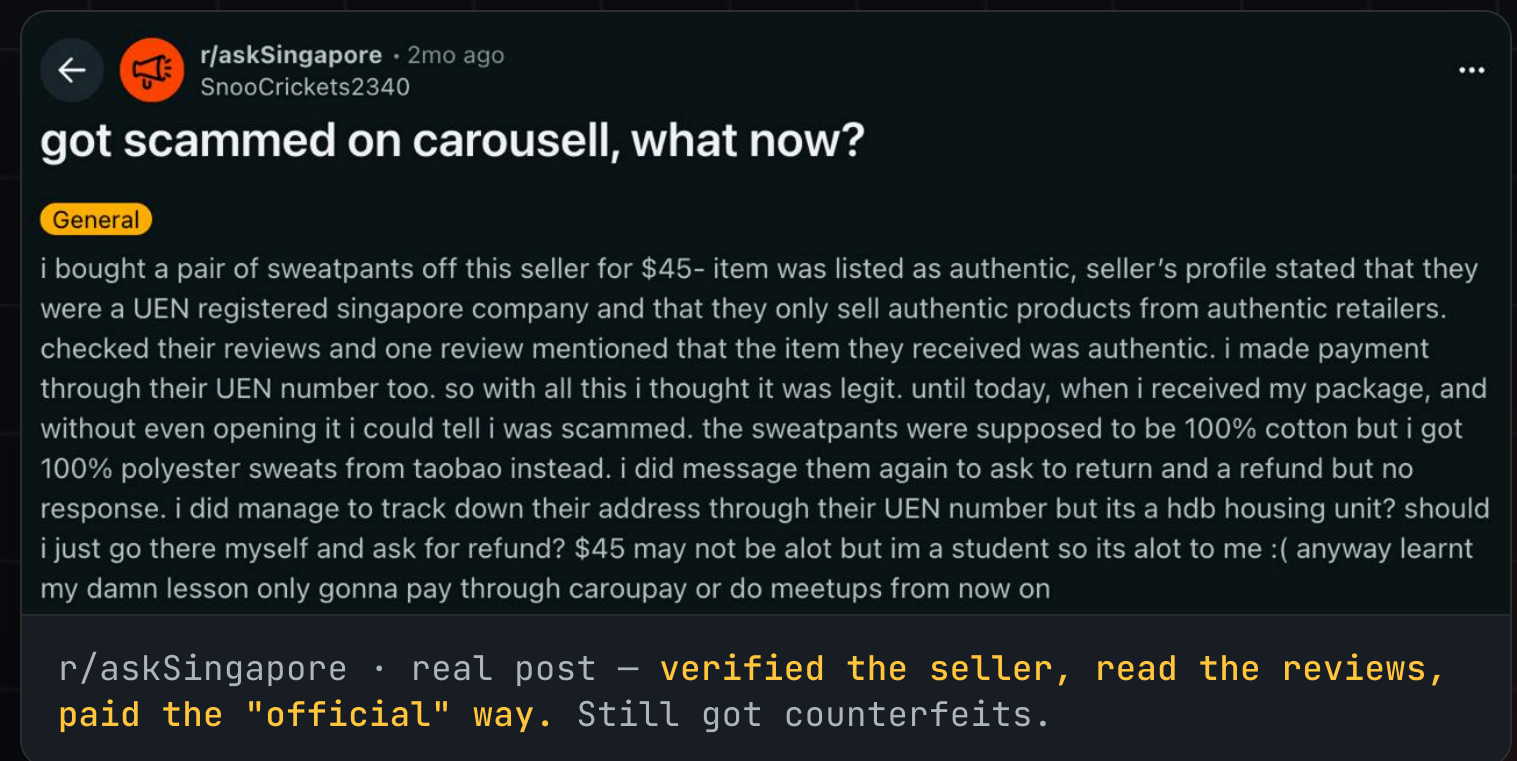

A vaccine for online scams.

Don't warn people about fraud. Let them safely **survive** a scam —
so the real one never lands.

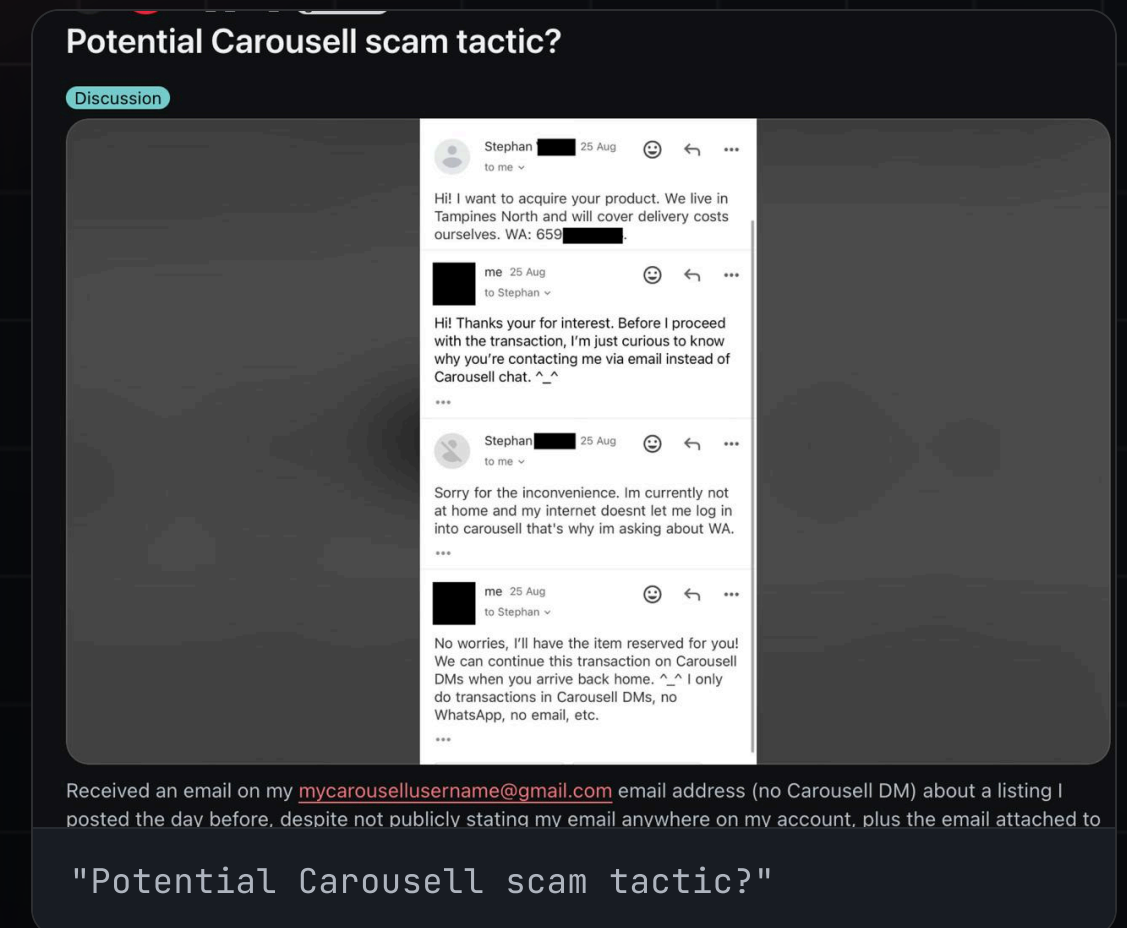

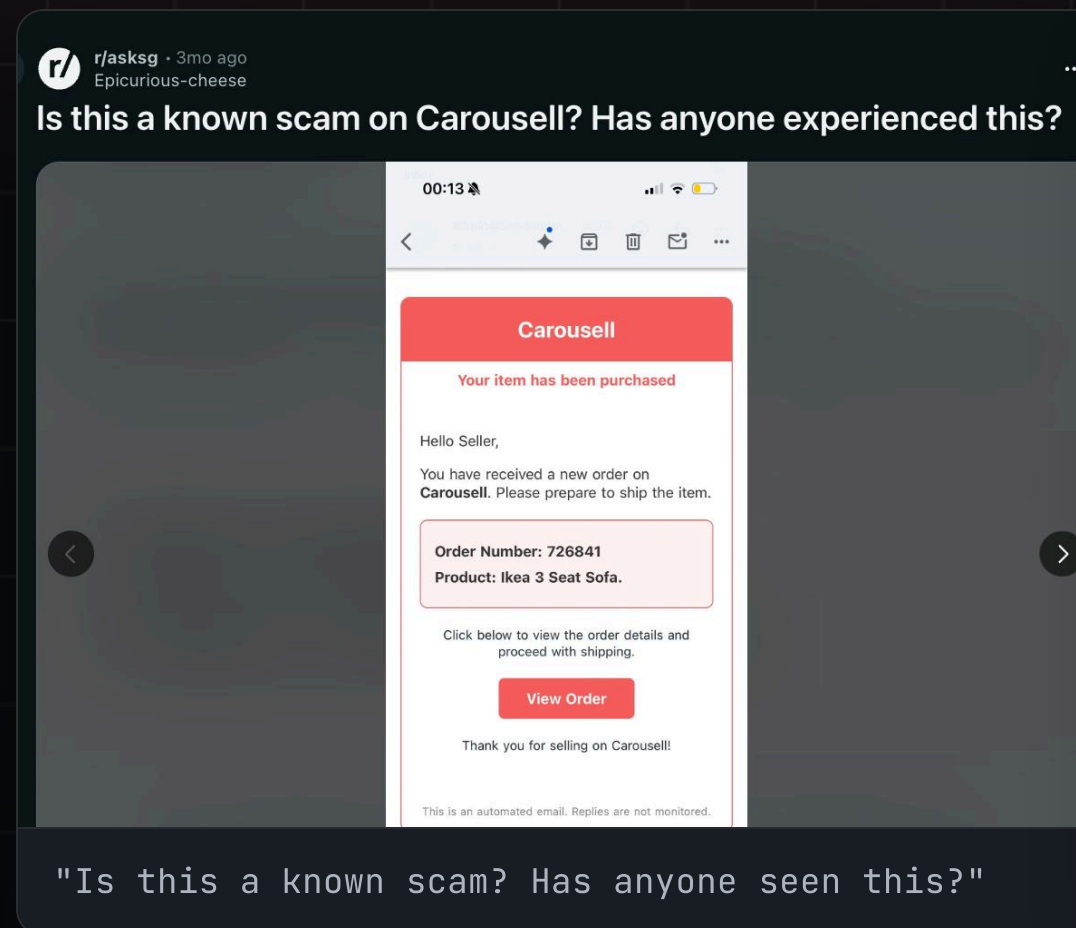

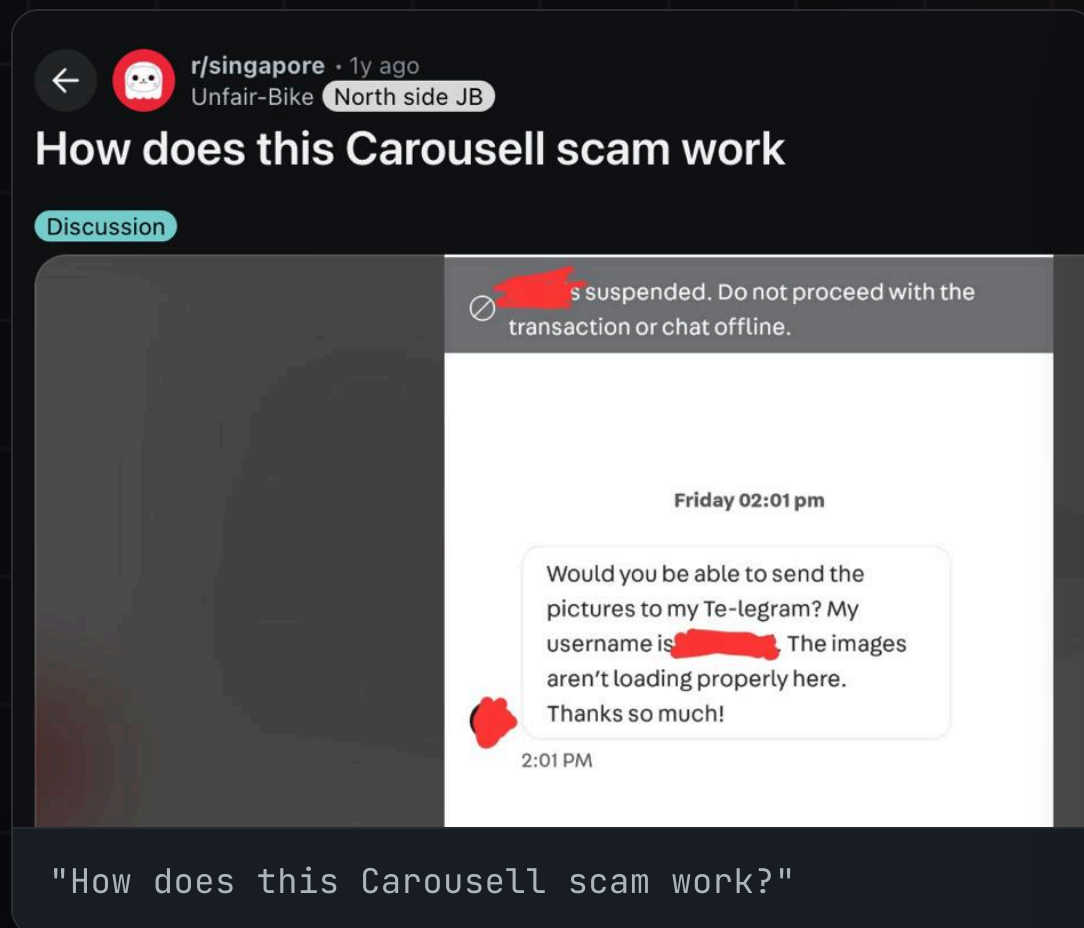

"It won't happen to **me**."

The most confident buyers are the **easiest marks.**

Modern scams look completely legitimate. Careful, savvy people do everything right — and still get taken.

By the time they ask "is this a scam?"
the money's already gone.

Five scam types. Most people have met **none of them** — until it's real.

You can't teach instinct. You have to **trigger** it.

A WEAKENED THREAT

Survivable scam

A realistic but planted scam — dangerous-feeling, but it can't actually hurt you.

SAFE EXPOSURE

You engage it

You take the bait in a consequence-free environment and feel yourself nearly fall.

REAL IMMUNITY

Lasting instinct

Next time it's real, your gut fires the warning — because you've been here before.

Phish n Cheats is **inoculation** for fraud.

An opt-in event any marketplace can run.

We hide realistic **fake scam listings** among the real ones. Five scams are out there. Your mission: **find them before they find you.**

- Opt-in & transparent
- Platform-agnostic
- 5 scam archetypes

Running sneakers US 9
\$75

iPhone 15 Pro Max – today only
\$420

Polarized sunglasses
\$45

Road bike – well kept
\$340

PLANTED

The seller is an **AI** running a live scam.

@quickdeals_88

AI seller · powered by OpenAI

Still available! But I've got 3 other buyers
😬 Can you pay now to lock it?

Let's just do PayNow on WhatsApp, skip
the platform fees 👍

ok sure, what's your number?

⚠ red flag — pushing you off-platform

- 01 You browse a real marketplace.
- 02 You chat with the "seller" — it's an AI.
- 03 It runs a live scam, adapting to every reply.
- 04 You cross an unsafe line.
- 05 **FREEZE → "You just got scammed." Graded + taught.**

● REAL PLAY-THROUGH

Watch someone almost fall for it.

[unedited screen recording – the AI does the rest]

Every play teaches the buyer — and **arms the platform.**

FOR THE BUYER

A lesson they actually feel

- A Scam Resistance score + level — Rookie → Guardian
- An annotated replay of every red flag
- "What you did vs. what you should have"

FOR THE TRUST TEAM

Live fraud intelligence

- Which scams fool the most people
- The red flags players miss most
- Proof that resistance improves over the event
- **+ you, tonight** — this play moves the numbers live

Education + Intelligence — drop into any marketplace.

**Don't warn people
about scams.
Let them survive one.**
